

CAPABILITY STATEMENT FOR SAGO BUILDING MANAGEMENT, LLC

Updated May 2014

“While its primary focus is on AE Design Build services, SAGO Building Management, LLC seeks to enrich the lives of others by providing thorough instruction, hands-on-training, certification, and employment within the scope of Construction and Building Management services. This mission is realized through SAGO’s many partnerships and procurement of work projects, organized execution of those projects, and the relentless pursuit to deliver on or before schedule.”

SAGO BUILDING MANAGEMENT, LLC

was launched in early 2003 and seeks to serve and enrich its local community by offering technical programs “pro bono” to minority and disadvantaged workers.

The organization has graduated and certified more than 100 skilled tradesman who now work in their respective field. Scopes of training and certification include, but not limited to: HVAC, electrical, and plumbing. SAGO employs 25% of its graduates and has emerged as a premier provider of AE design build, building management, and construction services throughout Maryland, Virginia, and the District of Columbia.
